PROFESSIONAL SUMMARY

Versatile Full-stack Developer with proven expertise in mobile and web development. Specialized in Flutter, React Native, and Next.js, delivering scalable solutions with exceptional user experiences. Track record of successful project leadership and innovative problem-solving. Strong focus on modern development practices and emerging technologies.

TECHNICAL SKILLS

MOBILE DEVELOPMENT

• Flutter

• Native Android (Java/Kotlin)

• Mobile App Architecture

• Play Store & App Store Deployment

• Cross-platform Development

WEB DEVELOPMENT

• Next.js (Advanced)

• Laravel & WordPress

• TypeScript / JavaScript

• REST APIs Development

• Tailwind CSS / SCSS

CLOUD & INFRASTRUCTURE

• AWS (EC2, S3, RDS)

• Firebase (Auth, Firestore)

• Docker Containerization

• Database Design & Optimization

• Server Management

ADDITIONAL SKILLS

• AI Tools Integration

• ChatGPT & Copilot Proficiency

• Version Control (Git)

• Performance Optimization

• Project Management

WORK EXPERIENCE

SOFTWARE ENGINEER

CEYLON BUSINESS APPLIENCES • 2023 - Present

- Developed and maintained POS systems using Native Android (Java)
- Working with Flutter and React Native development
- Delivered high-quality solutions within deadlines
- Collaborated effectively in a team environment

SOFTWARE DEVELOPMENT CONSULTANT

MENDISONE • 2023 - Present

- Led web and Android app development projects
- Utilized Flutter, React Native, Spring Boot, React, Laravel, and NEXT.js
- Provided consultancy services and technical guidance
- Contributed to client success and project excellence

SOFTWARE DEVELOPER

MENDISONE • 2022 - 2023

- Developed web and Android applications

- Worked with Laravel, WordPress, and Android native development

- Delivered high-quality code and maintained coding standards

- Collaborated with team members to meet project objectives

JUNIOR SOFTWARE DEVELOPER
MENDISONE • 2022 - 2023

- Contributed to web and Android development projects

- Worked with Laravel, WordPress, and Android development

- Developed and maintained robust solutions

- Collaborated effectively within development team

MOBILE APPLICATION DEVELOPER
FIVERR • 2019 - 2023

- Created innovative mobile solutions for diverse clients

- Developed Android apps using Flutter, React Native, and native technologies

- Delivered tailored solutions meeting client requirements

- Maintained high client satisfaction and positive reviews

EDUCATION

BSc (Hons) Software Engineering
Cardiff Metropolitan University • 2024 - Present

HD in Computing and Software Engineering

HD in Computing and Software Engineering
ICBT Campus • 2020 - 2022

Diploma in Software Engineering
ESOFT Metro Campus • 2023 - Present

Diploma in Web Engineering
ESOFT Metro Campus • 2016 - Present

Advanced Level

- Physics - C
- Biology - C

- Chemistry - C

NOTABLE PROJECTS

Beggar Card Game

Cross-platform card game developed with Flutter, supporting Web, Android, and iOS platforms. Features include real-time multiplayer gameplay, custom animations, and responsive design. Demonstrates expertise in Flutter's advanced capabilities for gaming applications.

BeTracky Background Location Service

Published Flutter plugin for continuous background location tracking. Enables real-time location updates even when app is terminated. Available on pub.dev with comprehensive documentation and implementation examples. Successfully implemented in multiple production applications.

Trackable

Sales employee tracking system built with React Native (mobile) and React/Spring Boot (backend). Features include real-time location tracking, field operations monitoring, and performance analytics. Enhanced workforce management efficiency through integrated frontend and backend solutions.

BLOODME.ORG

Dual-platform blood donation service developed with native Android and Laravel. Features include real-time donor location filtering, emergency alerts, and donor registration. Project successfully transferred to campus team for continued development and maintenance.
